Xxx,

I thought you may be able to help me. I really appreciate you being a season ticket holder and I thought you may know a few others who may be ready to become season ticket holders. Let me explain, the City Council is trying to really screw us again. They want to take our rent from \$900 per game to \$10,000 per game. That's right! I did not accidentally type and extra "0". Its \$10,000 per game.

We need to know if we can get the commitment from our current STH's (which you already have), and see about getting some new folks on board. We have about two weeks before our owner needs to make a decision regarding the team's future. Can you help with any names of people that you think may be interested? Someone could get twp GREEN Level Season Tickets for \$750. A \$100 deposit to hold the seat and then four payments of \$162.50 and your set to go for 32 nights of entertainment! Let me know if you have any thoughts. Thanks for your continued support!
